# The generational circles from Adam to Moses

4106–1406 BC · 27 schematic generations of 100 years, with second Cainan included

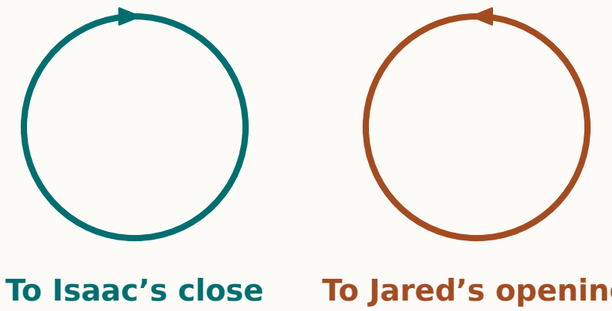

### The outer semicircles

From Creation and from Moses

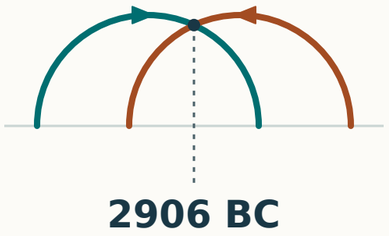

### The two full circles

The 22nd century from either end

### The intersecting semicircles

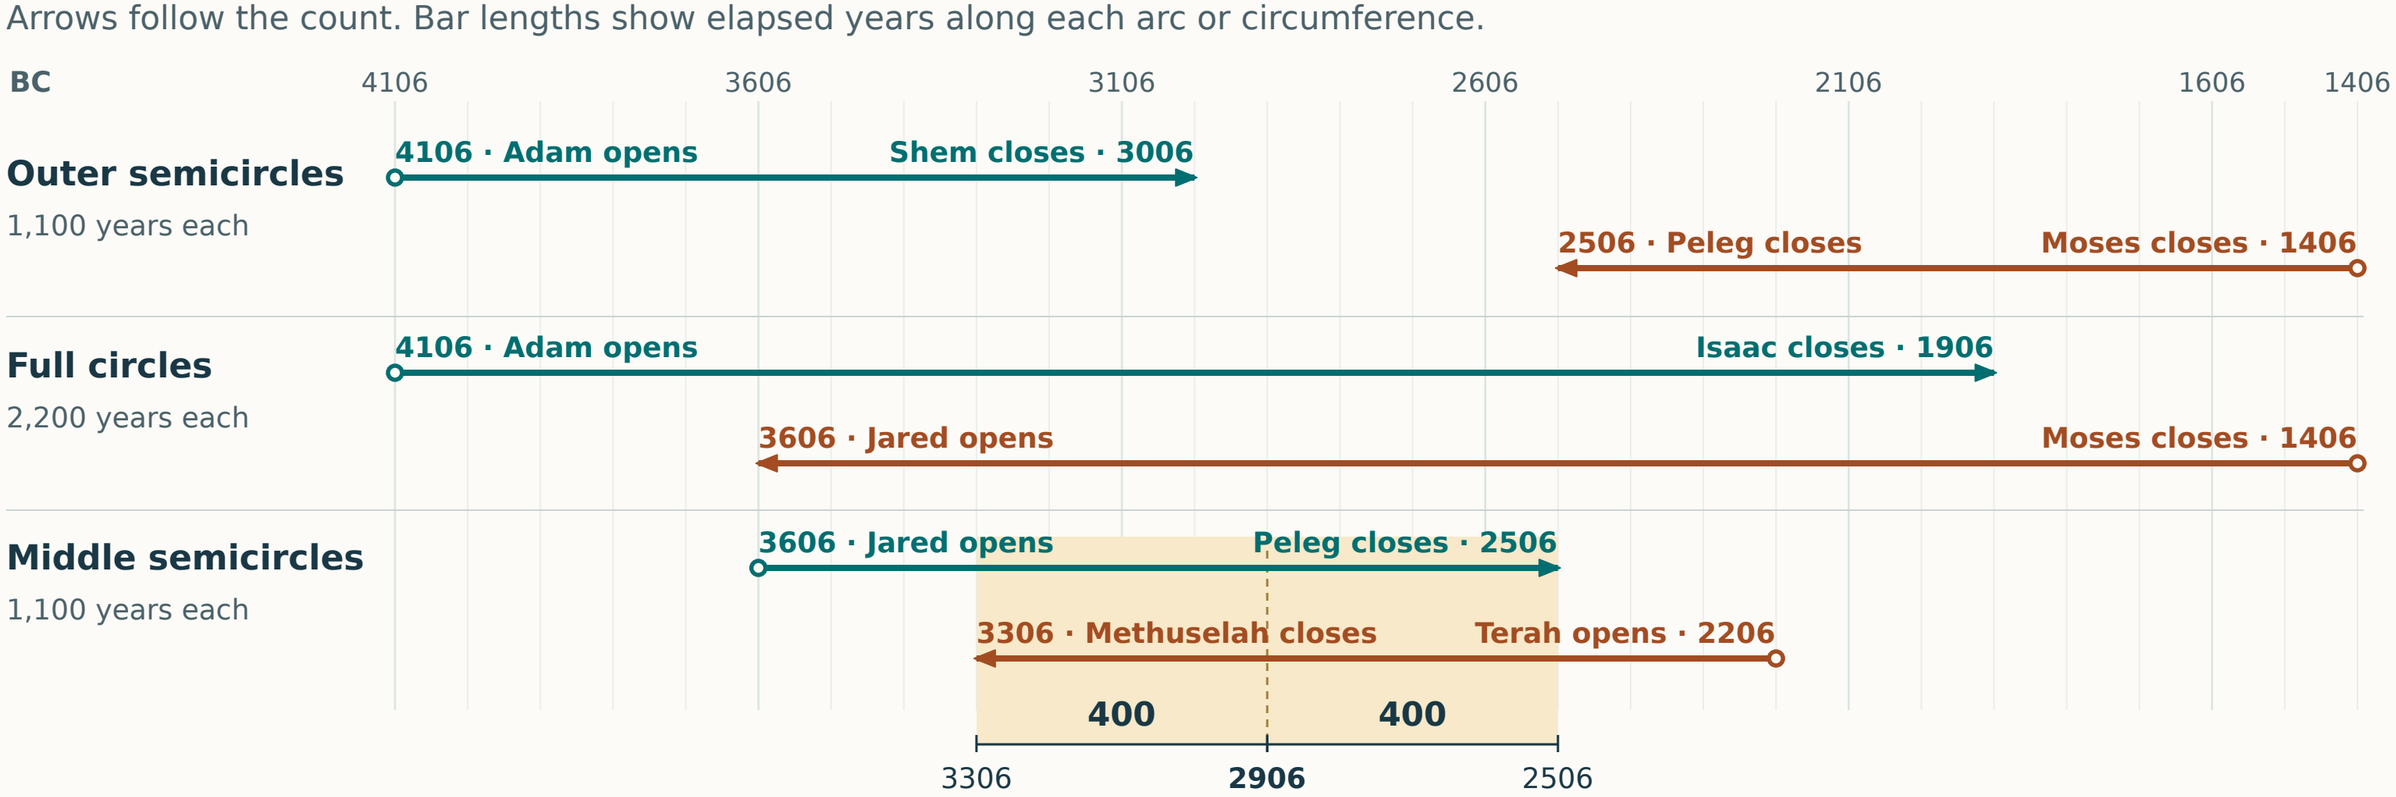

The two inner spans of 1,100 years

All six forms have a 700-year diameter. At π ≈ 22/7, each semicircular arc measures 1,100 years and each full circle 2,200.

## The same six spans on one time scale

Arrows follow the count. Bar lengths show elapsed years along each arc or circumference.

## The shared 800 years

Methuselah’s close → second Cainan’s opening → Peleg’s close. The Sumerian King List Short anchor is 2906 BC.
