The chronology backbone across the Mirror

Rounded MT, the Gospel genealogies and the 27-century schematic on one signed date axis.

- Creation–Christ triangles
- Creation triangles · base 9,900
- Earlier MT and Luke circles
- Jared–Jared triangles
- Squares · side 7,000
- Central Enoch semicircles
- Transfer of 9,900 to Cainan
- Creation–Jared semicircles

Both 14,000-base placements are provisional.

Square and Flood semicircle

9,900 / 7,000 = 99/70 ≈ √2

11,000 / 7,000 = 11/7 ≈ π/2

The same 7,000 measures a square side and a semicircle diameter.

From Jared across the Mirror

−7,000 → +2,900 · 9,900 to Cainan

−7,000 → +2,800 · 9,800 to Shelah

The 14,000-base triangles have equal slopes of 9,900 and height 7,000.714.

Same-side Rounded MT

Creation → Noah → Flood → Conquest spans 1,050 + 600 + 1,050 years.

Luke's Adam to Matthew's Abraham

−7,500 to +4,000, or −7,400 to +4,100 with the paired count change, both span 11,500.

Christ at 6 BC is coordinate 0. The Mirror is a half-turn about that origin.
